

Mill Creek Park is the largest area of the MetroParks, encompassing more than 2,800 acres of the MetroParks, include hiking, biking, boating, fishing, golf, tennis, and much more. This guide includes some of the most-loved trails in Mill Creek Park.

The northern section of Mill Creek Park includes Lanterman's Falls and the Mill Creek Gorge. This area offers breathtaking views with its cascading waters, steep hillside covered with deciduous and evergreen trees, bold sandstone outcroppings, and numerous grass-covered meadows. South of the Gorge, the land is fairly level and partly wooded.

Additional hiking and biking trails are located throughout the MetroParks' regional sites. Guided hikes and other recreational programs are offered year-round and can be found by visiting MillCreekMetroParks.org. We encourage you to explore the beauty and diversity of Ohio's first park district.
